UPSIDE-DOWNERS

easy pullovers to knit from the top down

Here's a new way to look at your knitting - from the top down !

Each design in this book begins at the neck and works down towards the lower band, using a circular needle for the body and double-pointed needles for the sleeves.

It's an ideal method for people who love knitting but not finishing ... there are no seams to sew.

For a special look, stripes, cables or fair-isle motifs can be worked in as you go, just like in conventional knitting.

*These projects are suitable for any **Patons knitting worsted weight yarn**. They have a knitting tension in plain stocking stitch of 20 sts = 4 ins (10 cm) on 4½ mm (U.S. 7) needles. Several of the most popular K.W. yarns are described below.*

Patons Canadiana KW is a top quality 100% acrylic yarn, with a broad shade range. It is ideal for family knitting, is non-allergenic, and comes in 50 g or 100 g balls.
- machine wash and dry.

Patons True North KW is a rich blend of 50% wool and 50% acrylic, in a vibrant shade range. It's a good choice for family or fashion knitting, combining the luxurious look and feel of wool with the practical characteristics of acrylic.
- machine wash, dry flat.

Patons Classic Wool is a smooth, soft, merino blend pure wool, ideal for trendy or traditional knitting. It's available in a superb range of current and classic shades.
- hand wash, dry flat.

Patons Rustic Wool is a natural pure wool with an earthy homespun look. The shades are subtle mixtures of the colours of nature ... truly a wool lover's delight!
- hand wash, dry flat.

HELPFUL HINTS

For best results, be sure to use the yarn recommended in the pattern, and purchase enough of one dye lot to complete your project. It is a good idea to retain ball bands in case of inquiry. Before you begin to knit check your tension by making a test swatch and adjusting needle sizes, if necessary, to obtain the tension quoted in the pattern. Inaccurate tension results in a garment too large or too small. Even a variation of half a stitch makes an obvious difference in the finished size. Loose tension can result in the garment losing its shape during wear or laundering. Before beginning, read the instructions and underline all figures applying to your size. Sizes should be chosen from actual bust or chest measurements and not age or ready-to-wear sizes.

If you are using **Patons Classic Wool** or **Patons Rustic Wool** your garments can be steamed into shape, following the dimensions on the schematic diagrams. Pin garment to a flat surface and cover with a damp cloth. **Press lightly using a steam iron.** When dry, unpin and proceed with the Finishing Instructions given in the pattern.

If you are using **Patons Canadiana** or **Patons True North K.W.** your garment should not be steamed. If pressing is required, lay garment right side down on a flat surface and pin to measurements following schematic diagrams. Cover with a damp cloth and leave to dry.

WASHING INSTRUCTIONS

Patons Classic Wool and Patons Rustic Wool: Hand wash. Dry flat.

Patons Canadiana: Machine wash. Machine dry.

Patons True North K.W.: Machine wash, cool water, gentle cycle. Dry flat.

HAND WASHING

Note the measurements of the garment before washing. Thoroughly dissolve soap or mild detergent in lukewarm water. Place the garment in the suds and squeeze gently. Do not rub or leave to soak. Support the garment with your hands as you remove it from the water. Rinse twice in clean, lukewarm water. Remove excess moisture by rolling in a thick towel.

MACHINE WASHING

Do up buttons and turn the garment inside out. Wash the garment, preferably on its own, with a gentle cycle, using lukewarm water and detergent. Softener may be added to the final rinse. Do not use bleach.

DRYING FLAT

Do not wring, twist or hang to dry. Lay garment on a flat surface away from lights, sunlight and excessive heat. While still damp, gently push garment back to its original measurements.

MACHINE DRYING

Tumble dry at low setting. Do not over-heat.

HOW TO M1 (Make one st)

1. Insert the right hand needle from front to back under the horizontal strand lying between the last st on right hand needle and the next st on left hand needle.

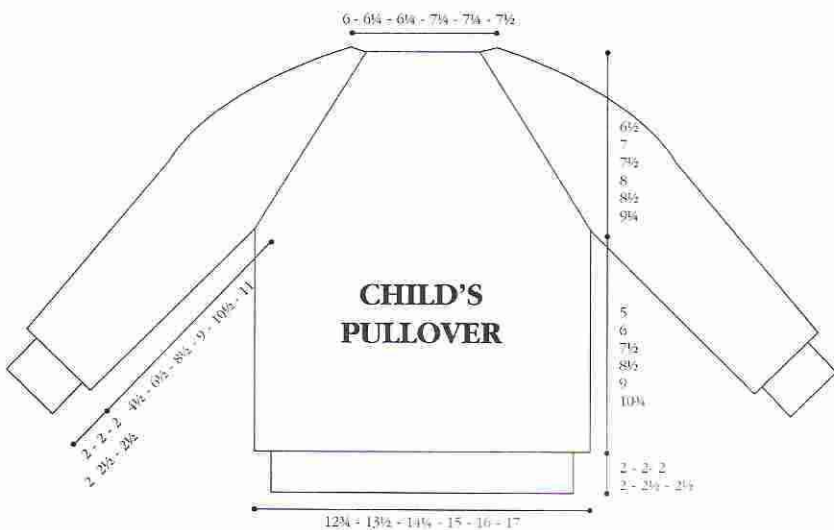

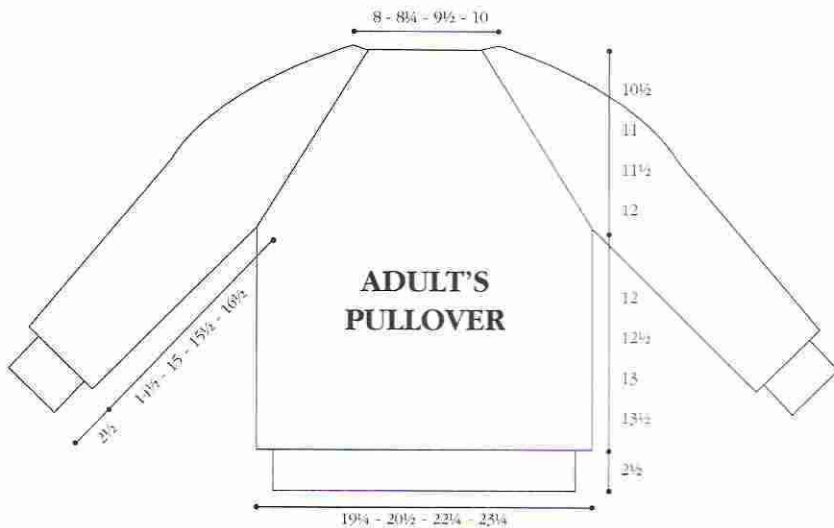

2. Lift the strand onto the left hand needle. Insert right hand needle through the **back** of this newly formed st and knit into it. (Knitting into the back of this st will twist the st and prevents a hole forming).

3. Slip this twisted st onto the right hand needle. A new st has been formed between two existing sts.
